EXPERIENCE

BlueModus: UX Lead

May 2013 - Present

I am a UX Developer that manages teams of frontend developers, designs, and writes code. Our clients have included Bacardi, AstraZenica, and National Jewish Health.

HTML/CSS, SASS, Bootstrap/Foundation, Sketch, Photoshop, Kentico, Veeva, Salesforce, .NET, Angular.js, Git

Orange Collar Media: Technical Lead

October 2011 - May 2013

I led a team of frontend developers in the construction of Magento sites for a variety of companies. Clients included Bioware and Rovio's Angry Birds.

HTML/CSS, jQuery, Photoshop, Illustrator, Magento, PHP, SVN

Zerista: Lead Frontend Developer

March 2011 - September 2011

I worked as Lead Frontend Developer on Zerista's core product, a private social networking app for large events. Clients included Sonic Restaurants and The American Film Market.

HTML/CSS, SASS, JS, Ruby on Rails

booj: Lead Marketing Designer

March 2009 - February 2011

As Lead Marketing Designer I lead the design and implementation of numerous marketing campaigns, as well as a few client-facing sites. Clients included Waste Management and Skogman Realty.

Photoshop, Illustrator, inDesign, Flash, HTML/CSS, printing

EDUCATION

The Art Institute of Colorado

July 2005 - December 2008

I have a B.A. in Interactive Media Design. I continue to aid the Art Institute by participating in their Professional Advisory Committee.

WHAT I DO

1

I work with designers to guide their UX decisions and translate their work into HTML/CSS/JS.

2

I design from scratch (Sketch, PS, or Illustrator) when no design team exists.

3

I act as liason between the client and production team as a tech-translator.

4

I lead teams of frontend devs to architect projects - or do the frontend work myself, if the task is particularly challenging.

HARD SKILLS

UX/UI

Sketch/Photoshop
Illustrator/inDesign
Interaction Design
Atomic Design

DEV

W3C-valid HTML
CSS/SASS
Bootstrap/Foundation
JS/jQuery/Angular
GIT/SVN

SOFT SKILLS

- Strong communication, written and verbal (I have written design articles for [Paste Magazine](#) and [The Practical Dev](#))
- Enjoys explaining technical details to non-technical staff
- Adaptable mindset, fast learner, eager to help others
